## Python Developer

📞 +37455-33-77-01

✉️ aren.tovmasyan09@gmail.com

📍 Abovyan Armenia

## SKILLS

### Programming & Development

- Python (functions, lists, dictionaries, file handling, modules)
- Object-Oriented Programming (OOP)
- Git & GitHub (version control)
- Linux (Ubuntu)

### Machine Learning & Data Analysis

- Supervised & Unsupervised Learning
- Linear Regression, Classification, Clustering
- Decision Trees, Random Forests, Neural Networks
- Data Cleaning, Preprocessing & Feature Engineering
- Model Building & Evaluation (scikit-learn)

### Mathematics

- Mathematical Analysis

- Linear Algebra

- Probability Theory

### Tools & Project Management

- Jira

- Trello

## LANGUAGE

Armenian

Russian

English

## About Me

I am Aren, a Python developer with a strong interest in the field of machine learning. I am focused on expanding my knowledge of machine learning algorithms and mathematical foundations, while strengthening my skills in data analysis and model development through real-world projects. I am committed to continuous learning, professional growth, and contributing meaningful value to a team.

## EDUCATION

### Russian-Armenian University

Bachelor's Degree in Computer Science and Applied Mathematics (In Progress)

### 42 Yerevan International School

Receiving in-depth technical education in algorithms, programming, and computer science through self-directed learning and project-based methodologies.

### Armenian Code Academy

Python Programming Course

### Armenian code aca

ML and data science course

### Tumo Labs

Python & Machine Learning Self-Learning Program

## SOFT SKILLS

- Strong problem-solving and analytical thinking
- Continuous learning mindset and adaptability
- Time management and task prioritization
- Effective communication and presentation skills
- Ability to work independently and in a team
- Responsibility, persistence, and attention to detail
- Openness to feedback and self-improvement
- Logical thinking and structured approach to tasks
